**CREAM**

**ALE**

*All Natural, Premium and Pure.*

ALE • BIÈRE  
473mL 5% alc./vol.

Light weight- just .47 oz per 12 oz can

Aluminum cans are 100 percent recyclable infinitely

Beer cans are incredible billboards

Cans are really perfect vessels for beer, because they eliminate the chance of light or oxygen ruining it

Can be enjoyed in places where glass is off-limits: the dock, the pool, sporting events and concerts

Beer cans are the most recycled beverage container in the world.

Light weight, unbreakable, efficient to ship and store

Impervious to light and oxygen, providing unparalleled flavour protection

Made from more recycled material than bottles

Beer cans have come a long way since January 24, 1935, when the first beer was introduced in steel cans. Light weight, unbreakable, recyclable infinitely and the ultimate guardian of flavour protection. **Muskoka Cottage Brewery** proudly offers all of our award winning brands in a 473ml can format.
